The geographic numbers will be provided by the client. kwak will provide statistical data about call volume and minutes, generated by kwak's or the carriers systems. kwak will provide the client with username and password for logon to these statistics. Statistics are informational only. The carrier's bill is the basis for the bill or credit note issued by kwak.

Obligations of the Client

The Client shall provide services to the callers using the numbers allocated in the order confirmations.

The client will pay kwak's bills within a time of 14 days.

The Client shall be responsible for the quality and delivery of the content of the services and that these services comply with the National Telecommunications Legislation, a Code of Conduct (where applicable) and this agreement.

The Client shall obtain all necessary approvals, permissions or authorisations for use of the numbers.

The Client shall neither acquire any right, title or interest in the numbers.

The client shall inform kwak about the services rendered.

The Client shall ensure that the services neither infringe any intellectual property right nor are defamatory.

The Client shall reimburse kwak in full for any fines or charges incurred from any third party in connection with the client's failure to comply with the relevant rules and regulations issued by the relevant third party.

Rates and Payments

kwak shall pay the client in respect of calls to allocated numbers, according to the rates defined in the order confirmations.

Payment will be made at the date set forth in the order confirmation but at any event Kwak will only pay invoices in respect of calls, that are sent by the client and received by Kwak up to 90 days at the latest after the end of the month in which the traffic was sent towards KWAK.

Invoices not sent and/or approved by the Client within the 90 days period, will not be valid and will not be accepted for payment by Kwak.

All rates mentioned are exclusive of value added tax, with the exception of the information about caller rates, which normally are inclusive VAT.

In case of premium rate numbers ordered kwak will pay out the rate agreed upon. Setup costs, monthly fees, routing costs, chargebacks and other costs (if applicable)

will be deducted from the monthly payment. If the payout is lower than the costs billed the client agrees to pay the difference within 14 days after issue of the invoice.

kwak reserves the right to cut or delay the payout if there are chargebacks pending or foreseeable and to change the pricing and rates mentioned in this document or in annexes or confirmations upon seven (7) days after written notice. If retrospective price changes are implanted by the network provider that result in kwak having effectively overpaid the client, then kwak reserves the right to deduct amounts from subsequent payouts to address the balance of payments overpaid during the period affected by the retrospective changes.

kwak will not pay the client for traffic which is not paid by the carrier for any reason. For instances where this applies, appropriate written documents must be produced by kwak to prove this. kwak will also not pay for traffic where kwak itself can prove it to be fraudulent.

Arbitrage, illegal Use of Numbers

In case of justified doubt of systematic commercial use of volatile margin building in international linkup markets (arbitrage) by the contracting party or a third party, the client shall keep kwak clear of any loss. The client shall assume the sole responsibility against kwak in regard of the legitimacy of such use. All inquiries, queries or complaints in connection with arbitrage will be forwarded from kwak to the client.

The client and not kwak bears the responsibility of the correctness of the contents behind or the use of the numbers. In case of legal action with regard of a number provided by kwak to the client, the client shall be part of such legal action and shall bear the risk as well as costs. The client is responsible to provide the necessary documentation, like legally binding declarations about endclients, usage and the client's responsibility towards authorities and courts, if possible after previous approval from kwak.

If kwak suspects a violation of the contract, especially of illegal use or arbitrage, it has the right to suspend all payments to the client, even if kwak has been paid by the carrier, until a legally binding or official decision is taken, which confirms the legality of the client's actions, or use of the numbers.
